Enough already! I am a retired Marine having served 26 1/2 years. I fought for this country because above all else it was a country that rewarded those who were willing to step into the arena and give their all for the benefit of others. No greater example of this exist than Bill Gates and Steve Jobs. It is beyond comprehension that Microsoft is being penalized for being innovative. Not only have they made it possible for virtually EVERYONE to be able to use a computer but have done it without the greed we see in the companies and politicians who are attacking them. Please use some common sense and end this unjustified attack--- not for Microsoft but for the good of this country I hope we both love. Thank you kindly Joe and Sandy Sucha
